

# Mobile Express Ice Carts

For Mobile Express ice bins

## HOWE Proven. Best Choice.™

Designed to perfectly compliment Rapid Freeze ice flakers and Mobile Express ice storage systems. Howe's Mobile Express ice transport carts are roto cast Polyethylene double wall body, with extra thick foam insulation for maintaining cold temperatures. Rounded inside corners ensure easy and thorough cleaning and sanitizing.

Howe Model CP200 Mobile Express ice carts hold approximately 200 pound (90.70kg) of flake ice. Insulated polyethylene cart lids open and lay flat against the side of cart to conserve space. By remaining hinged to the cart, potential for cross contamination or loss of top is eliminated.

Dual handles, large 10" rear wheels and swivel front wheels allow easy maneuvering over rough surfaces.

HOWE CP200 MOBILE EXPRESS CART	
STORAGE CAPACITY	APPROXIMATELY 200 POUNDS
